Interfaces
Fall 2018

Individual Report for Finalst Release

Group No. 9

Project Title: Chitchat.io

Name: Cody Peter

Individual Contribution

- Style personal messaging module to make presentable.
- Fixed a bug in messaging which printed incorrect info.
- Add personal messaging module onto front page.
- Add firebase functions to i) record timestamp of user created.
ii) Cleanup messages and account information for a user when the user is deleted.

Worked on Story Cards No. Personal Messaging and Database
Management

- **Personal Messaging:** Search for and send personal messages to specific user.
- **Database Management:** Clean up a users info after their account is deleted.

Outcomes

- The team successfully implemented all story cards.
- Communication and trello/git were kept updated throughout the process making it easy to identify what still required work.
- Overall the team successfully developed ChitChat.io.
